WARNING
READ BEFORE USING YOUR PLAYSTATION GAME CONSOLE

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large screen projection televisions. Refer to your projection TV instruction manual for more details.

INTRODUCTION

Lara Croft, daughter of Lord Henshingly Croft, was raised to be an aristocrat from birth. After attending finishing school at the age of 21, Lara's marriage into wealth had seemed assured, but on her way home from a skiing trip her chartered plane had crashed deep in the heart of the Himalayas. The only survivor, Lara learned how to depend on her wits to stay alive in hostile conditions a world away from her sheltered upbringing. 2 weeks later when she walked into the village of Tokakeriby her experiences had had a profound effect on her. Unable to stand the claustrophobic suffocating atmosphere of upper-class British society, she realized that she was only truly alive when she was travelling alone. Over the 8 following years she acquired an intimate knowledge of ancient civilizations across the globe. Her family soon disowned their prodigal daughter, and she turned to writing to fund her trips. Famed for dis-
Forward Roll
Selecting Forward Roll will make Lara dive forward, and finish up facing the opposite direction.

Jumping
Lara can jump in any direction, to evade her enemies. Press the jump button and Lara will jump straight up into the air. If you press a direction immediately after pressing jump, Lara will jump in that direction.

NOTE: By jumping straight up while holding the X button, Lara can “inch” her way forwards and grab those tricky ledges.

Grabbing hold
If Lara is near to a ledge while she is jumping, pressing and holding the X button will allow her to grab the ledge in front of her and hang there. Press Left or Right, and Lara will shimmy sideways. Pressing Up will make Lara climb up to the level above. Let go of X and Lara will drop.

Picking objects up
Lara can retrieve objects and store them in her inventory. Position Lara so that the object you want to retrieve is in front of her feet. Press the X button and she will pick it up.

Using switches
Position Lara so that the switch is in front of her. Press the X button and she will use it.

Using Puzzle Items/Keys
Position Lara so that the object receptor is in front of her. Press the X button and the item ring will appear. Left and Right will allow you to select the object you want to try, and pressing X again will use it.

Pushing/Pulling Objects
Lara can push certain blocks around and use them to climb up to greater heights. Stand in front of the block and hold Down X, Lara will get into her ready stance. Once she is ready, press backwards to pull the block, and forwards to push it, if you decide you no longer wish to carry on with this task, simply release the X button.

Looking around
Pressing the look button will return the camera to directly behind Lara, whatever the camera is currently doing. With the look button held
down, the direction buttons allow Lara to look around her. Once you let go of the button, the view returns to normal. (tip- if you are trying to line Lara up for a jump, and the camera is in an awkward position, pressing just the look button on its own will show you exactly what direction she is facing).

**SWIMMING**

**Underwater**
If Lara finds a pool of water, she can jump in, and have a jolly good swim around. Lara can hold her breath for about two minutes. If she is still underwater after the air meter runs out she'll take damage until she drowns.

Pressing up, down, left, or right makes Lara rotate in that direction. Pressing and holding Jump makes Lara swim.

Lara can pull levers and pick up objects under water. Just position Lara as close as you can and press X.

**Swimming on the surface**
Left and Right will rotate her; up and down make her swim forward and backward. You can also use the side step actions to swim Left or Right when on the waters surface. Pressing Jump will make Lara dive under the surface again, pressing X when Lara is close to an edge will make her climb out.

**Diving**
To dive, preferably into water, simply hold the Walk button while also holding the Jump button finally pressing the up directional button. This move has no real advantage over jumping into the water other than it looks great!
ATTACKING

Lara starts the game carrying two pistols. Later in the game she may find some extra weapons.

Shooting

Press draw and Lara will draw her guns. If Lara sees something she doesn't like the look of she will point her guns at it. If there are multiple enemies, Lara will lock on to different targets, choosing the best one as she sees fit.

Pressing X while Lara is aiming at something will assign that enemy as the current target. It will remain as the current target indefinitely while the X button is held down, regardless of whether or not Lara loses her lock.

While the X button is held, Lara will only fire at the current target, ignoring any other enemy in the vicinity. If Lara loses sight of the enemy, she will break her lock, but that enemy will still be assigned as the current target.

The camera will track the current target, so even if Lara loses sight of it, you can still see where it is.

To make Lara continue shooting the current target after she has lost her lock, simply point her in the proper direction.

If you want to shoot a different enemy, simply let go of X, and Lara will pick a new target.

While you have your guns out, Lara can no longer do anything that would involve the use of her hands.

IN GAME MENU RINGS

While in-game pressing Select will display the Menu Rings Press Left and Right to rotate the menu ring. Press X to use or select the foremost item ready for use. Press Up or Down to swap between Inventory, Items and Options rings (see menu ring for details of the options available).

1. Inventory Ring

Compass
Select Compass to display the direction in which you’re facing.
3. Options Ring - refer to “Starting the Game”

Passport
Here the options open to you are Restart level, Load game or Quit to Title Screen (in game option only).

Save Game
Collecting a Save Game Beacon, a revolving diamond, by picking it up will save your current game at that point. At the end of the level you will be prompted as to whether you wish to save your game here, if you choose to do so then your current mid-level save game will be overwritten. All successfully completed levels will be saved and available for loading.

Your full game configuration will be saved within the Save Game.

NOTE: You will need a memory card to save your game.

Load Game
To load a previously saved game proceed to the Menu Ring select the Passport and choose and select the game you wish to load. A more detailed description of the Passport functions is given under Starting the Game - Passport.
Statistics Screen
At the end of each level you are presented with a Statistics screen. Here you will be able to judge just how well you have performed.

At the successful completion of each level your health will be restored to 100%.

If you die in-game you will be presented with the Passport Screen. Here you will be given the opportunity to Load (a previously saved game), Restart Level or Exit to the Title Screen.
