If you press a Directional button immediately after pressing Jump, Lara will jump in that direction. In addition, pressing Down or Roll straight after starting a forward jump makes Lara somersault in the air and land facing the opposite direction. This also works when jumping backwards by pressing Up or Roll immediately after takeoff.
SWIMMING

UNDERWATER
If Lara finds a deep pool of water, she can jump in, and swim around. Lara can hold her breath for about one minute; if she is still underwater after that, she'll drown.

WADING IN SHALLOW WATER
Lara won't swim in waist deep water; instead she wades. The controls are basically the same as when she is on dry land, except it is slower going and she can only jump on the spot, not in a direction.

EXTREME DEPTH SUIT
The EDS suit is used for diving and exploring the seabed at depths where conventional divers cannot reach. The suit has its own propulsion units and is also equipped with torpedo decoys. If a torpedo is fired at you, launch a decoy and swim away, if you have successfully deployed the decoy the torpedo should be attracted to it enabling Lara to fight another day. The suit is controlled in the same way as conventional swimming.

Carefully avoid the rock faces at the seabed, as colliding with them will stress Lara making her breathe heavier and use her air quicker!

Whilst Lara has her guns drawn, she can no longer do anything that requires the use of her hands.

These actions are described below.

OTHER ACTIONS

USING FLARES
If Lara finds herself in the dark and has any flares in her inventory, she can get one out and light it by pressing the Flare (SELECT + R1) Button. This will light up her surroundings for a minute or so, and whilst she is carrying it she can still vault or climb – they even work underwater. If she wishes to discard the flare, it can be dropped by pressing the Draw (TRIANGLE) Button, to throw the Flare a longer distance press the Flare (SELECT + R1) Button combination again.
