CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned ON, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:
- Convulsions
- Eye or muscle twitching
- Loss of awareness
- Altered vision
- Involuntary movements
- Disorientation

To reduce the likelihood of a seizure when playing video games:
- Sit or stand as far from the screen as possible.
- Play video games on the smallest available television screen.
- Do not play if you are tired or need sleep.
- Play in a well-lit room.
- Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don’t think you need it.
- If your hands, wrists, arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists, arms or eyes during or after play, stop playing and see a doctor.

WARNING - Electric Shock

To avoid electric shock when you use this system:

- Do not use the Nintendo GameCube during a lightning storm. There may be a risk of electric shock from lightning.
- Use only the AC adapter that comes with your system.
- Do not use the AC adapter if it has damaged, split or broken cords or wires.
- Make sure that the AC adapter cord is fully inserted into the wall outlet or extension cord.
- Always carefully disconnect all plugs by pulling on the plug and not on the cord. Make sure the Nintendo GameCube power switch is turned OFF before removing the AC adapter cord from an outlet.

WARNING - Motion Sickness

Playing video games can cause motion sickness. If you or your child feel dizzy or nauseous when playing video games with this system, stop playing and rest. Do not drive or engage in other demanding activity until you feel better.

CAUTION - Laser Device

The Nintendo GameCube is a Class I laser product. Do not attempt to disassemble the Nintendo GameCube. Refer servicing to qualified personnel only.

CAUTION - Use of controls or adjustments or procedures other than those specified herein may result in hazardous radiation exposure.

CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned ON, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

LARA

At the age of nine, Lara survived a plane crash in the Himalayan mountains that led to the death of her mother. After miraculously surviving a ten-day solo trek from the crash site to Kathmandu, she spent the rest of her childhood under the close tutelage of her archeologist father, the late Earl of Abbingdon, Richard Croft.

At the age of 18, after the death of her father, Lara inherited the Croft estates and became Countess of Abbingdon. Since then she has been credited with the discovery of some 16 archeological sites of international significance.

Lara Croft has been hailed both as an archeological wunderkind and a glorified treasure hunter, depending on who’s talking. There are thousands of rumors surrounding Lara’s exploits, invariably involving the unexplained or outright unbelievable. Lady Croft herself is rarely available for comment, which further adds to the fog of mystery that surrounds her life and work.

Consequently, Lara Croft continues to be the focus of wild speculation and intense debate. Idealized and vilified in equal measure, she is perhaps one of the most fascinating, enigmatic figures of our time.

</tr>
</tbody>
</table>

Note: See pages 7-10 for in-game controls.
MAIN MENU

START GAME
Start a new game. If saved data is present on your Nintendo GameCube Memory Card, this option changes to RESUME GAME and resumes play from the last save.

LOAD
- NEW GAME  Start a new game.
- LOAD GAME  Display a list of saved games. Select a save and press the A Button to load it.
- LOAD LEVEL  Display a list of completed levels (present in the loaded save). Replay these levels to collect rewards, play in different difficulty modes, or attempt a Time Trial.

CROFT MANOR
You can visit Lara’s expansive manor via the Main Menu throughout the game. But to gain full access you must have a saved game containing at least one completed mission. Only then will all the Manor’s secrets become approachable for you to discover.

OPTIONS
Use the Menu Controls (page 3) to select game options and change settings.
- SOUND  Adjust the volume of the game’s MUSIC, SFX and VOICE.
- DISPLAY  Set SUBTITLES OFF or to your preferred language.
- CAMERA  Set the following options to YES or NO:
  - INVERT X-AXIS
  - INVERT Y-AXIS
  - AIM & BINOCs INVERT X-AXIS
  - AIM & BINOCs INVERT Y-AXIS
- CONTROL  Set the following options:
  - COMBAT MODE  Select STANDARD or ADVANCED HOLD.
  - RUMBLE  Turn the Controller’s rumble feature ON/OFF.

EXTRAS
Access information and bonus content within TOMB RAIDER: LEGEND®. By completing levels and collecting rewards along the way, you will unlock items that you can then select and view here.
DIFFICULTY LEVELS/SCREEN MODES

When you start a new game, you’ll be prompted to select a difficulty level and set two screen options:

- **DIFFICULTY**: Choose EXPLORER (easy), ADVENTURER (medium), or TOMB RAIDER (hard).

SAVING AND LOADING THE GAME

Press START/PAUSE during play to display the Pause Menu. From here you can save your progress and rewards and load a saved game.

SAVING YOUR PROGRESS

Every game level has several checkpoints to pass. The word CHECKPOINT will appear in the bottom right of the screen to inform you when Lara has passed a checkpoint. This is a good place to save your progress. Press START/PAUSE to access the Pause Menu and select SAVE, from here you can choose to create a new save game or overwrite an existing save.

You can also save between checkpoints, but Lara will always appear at the most recently saved checkpoint when a save is loaded again.

Note: There is no automatic save when you leave the game. However, if Lara dies during a game, she automatically restarts at the last checkpoint passed, regardless of whether or not you saved there. If you quit the game without saving, you lose all progress since the last saved checkpoint.

SAVING REWARDS

When you replay a previously completed level, you will have the option to select SAVE REWARDS to save any collected rewards to your current game.

LOADING A SAVED GAME

You can load any saved game on your Memory Card from the Main Menu or from the in-game Pause Menu. Select LOAD, then choose a save from one of the four save slots. If data is present, details of the save will be shown at screen right. Press the A Button to load and resume that game.

If you have a save that was created at the end of the game, you cannot load it during gameplay. Instead, you can revisit any part of the game via the LOAD LEVEL option (page 4) in the Main Menu.

Note: When Lara is swimming underwater, her air meter slowly drains. If it runs out, Lara will start to take damage to her standard health bar (page 11). If Lara does not surface for air in time, she will drown.
COMBAT AND ITEM CONTROLS

R Button
Fire.

L Button
Combat Mode lock-on.

Z Button
Accurate Aim Mode (toggle).

L (hold) + Z Buttons
Throw grenade.

X Button
Throw/Release grapple.

Y Button
Pull grapple/Interact with environmental targets (explosive barrels, etc.).

+Control Pad
- Use health pack.
- Switch weapons.
- (action depends on level) Throw flare/Personal Light Source (PLS) ON/OFF
- Binoculars. Activate the RAD (page 13) by pressing the Y Button in Binocular view.

AIMING AND FIRING CONTROLS

L Button
Lock-on target.

R Button
Fire weapon.

C Stick
Change target; click + during lock-on.

L (hold) + Z Buttons
Throw grenade at target.

MELEE ATTACKS

- SLIDE ATTACK
  Target enemies while running toward them, then press the B Button to slide. Lara slides into enemies, knocking them off balance and setting them up for her guns.

- AERIAL ATTACK
  Press the A Button twice when close to the enemy. With the first press, Lara jumps at an enemy. As she lands on the enemy, press the A Button again to activate slow time, then immediately press the R Button to fire, shooting the target.

- POWER KICK
  Hold the L Button and press the Y Button to kick the target enemy away with Lara's boot.

- JUMP KICK
  When Lara is locked-onto an enemy, press the A Button to jump, and then press the Y Button in midair to kick out at the enemy.

- GRAPPLE
  Hold the L Button and press the X Button to use Lara's grapple to pull enemies toward her and inflict some damage.

Note: Melee attacks are ineffective against animal enemies.
DEFENSIVE COMBAT CONTROLS

While Lara is locked-on to a target, she can perform various maneuvers to avoid enemy attacks.

- **ROLL**
  - Hold the L Button, press the Control Stick in any direction, then press the B Button.

- **FLIP**
  - Hold the L Button, press the Control Stick in any direction, then press the A Button.

TARGETING

The targeting reticle will appear when a target is within sight. The color of the reticle changes to indicate the target status:

- **GRAY RETICLE**
  - Target is out of range.

- **RED RETICLE**
  - Target is within range at the current distance.

- **BLUE RETICLE**
  - Target can be grappled.

Tip: If the target is within distance but off-screen, an arrow appears showing the direction of the target’s location.

HUD (Head’s-Up Display)

WEAPONS, ITEMS AND HEALTH

- **HEALTH BAR**
  - The health bar gauge displays Lara’s current health level. When Lara’s health gets dangerously low, you need to replenish it using a health pack (page 12) if available.

- **USE ITEMS**
  - (P.L.S., Health Pack, Binoculars) To use an item or gadget from Lara’s inventory, press the +Control Pad in the corresponding direction:
    - Health pack (use)
    - Switch weapons (toggle)
    - P.L.S. (ON/OFF)
    - Binoculars (ON/OFF)
MAGNETIC GRAPPLE

Using her grapple, Lara can manipulate objects from a distance, climb or drop to different heights, and swing across large gaps. The grapple consists of a magnetic grapple head that can latch onto discrete, visually distinct surfaces, plus a lengthy wire and an automatic recoiler.

Note: The grapple can only be used on specific shiny metallic surfaces.

BINOCULARS/REMOTE ANALYSIS DEVICE (RAD)

The RAD, a pair of high-tech lenses in Lara’s inventory, perform the following functions:

- **BINOculars**
  - Magnify the image in the field of view.

- **RAD Mode**
  - Analyse and provide a readout for objects in view that have significant archaeological or technological interest.

  Data collected include:
  - **CHEMically UnStable**
    - Object explodes given the right impulse.
  - **TECHnical**
    - Object is part of machinery large or small, ancient or modern, electronic or physical.
  - **MOVable**
    - Object can be moved, either with direct Lara interaction or by other means.
  - **PHYSically UnStable**
    - Object can be made to topple or break.

USING THE BINOCULARS/RAD

- Press the +Control Pad to activate the binoculars. (Press again to deactivate.) Press and hold the L/R Buttons to zoom in/out.
- Press the Y Button to activate RAD mode. (Press again to deactivate.)
REWARDS

Throughout Lara’s archeological adventure, various artifacts and relics become available for discovery and collection. Collecting rewards opens up bonus content and extra features such as outfits (which you can view in Croft Manor), pistol upgrades, concept art and much more. Make sure Lara scours the environment thoroughly.

Each mission has a number of different types of collectables:
- **BRONZE REWARDS** Informational content.
- **SILVER REWARDS** Game content.
- **GOLD REWARDS** Special game rewards.

Note: The most valuable unlockables are only obtained by collecting a combination of all three reward types. When each level is complete, you will be notified about which type of reward(s) you have managed to unlock. Select EXTRAS from the Main Menu to view and select your rewards.

Tip: Select LEVEL LOAD from the Main Menu to replay completed missions and pick up missed rewards.

EIDOS, INC., LICENSE & LIMITED WARRANTY

Eidos, Inc., warrants to you, the original purchaser of this Game Disc, that for a period of ninety (90) days from the date of your purchase, this Game Disc shall be free from defects in materials and workmanship. If, at any time during the applicable ninety (90) day warranty period you determine that this limited warranty has been breached, Eidos, Inc., agrees, in its sole option, to repair or replace, free of charge, any such Game Disc, provided the Game Disc is returned postage-paid to the Eidos, Inc., Factory Service Center and a proof of date of purchase is included. This limited warranty is not applicable to normal wear and tear and shall be void with respect to any defects that arise from Game Disc abuse, unreasonable use, mistreatment or neglect. This Game Disc is sold “as is” without any warranties of any kind, express or implied, including implied warranties of merchantability or fitness for a particular purpose, other than the limited warranty expressly stated above.

No other claims arising out of your purchase and use of this Game Disc shall be binding on or obligate Eidos, Inc., in any manner. Eidos, Inc., will not be liable to you for any losses or damages incurred for any reason as a result of your use of this Game Disc, including, but not limited to, any special, incidental, or consequential damages resulting from your possession, use or malfunction of this Game Disc.

This limited warranty states the entire obligation of Eidos, Inc., with respect to the purchase of your Game Disc. If any part of this limited warranty is determined to be void or illegal, the remainder shall remain in full force and effect.

For warranty support please contact our Customer Support department at (415) 615-6220. Our staff is available Monday through Friday, 9:00 a.m. to 12:00 noon and 1:00 p.m. to 5:00 p.m. Pacific Time. You are responsible for all toll charges. Customer Support Representatives will not provide game hints, strategies or codes.

PRODUCT RETURN PROCEDURE

In the event our support agents determine that your game Game Disc is defective, you will need to forward material directly to us. Please include a brief letter explaining what is enclosed and why you are sending it to us. The agent you speak with will give you an authorization number that must be included and you will need to include a daytime phone number so that we can contact you if necessary. Any materials not containing this authorization number will be returned to you unprocessed and unopened.

Send your postage-paid package to the following address:

Eidos, Inc. Customer Services
RMA# (state your authorization number here)
651 Brannan Street, Suite 400
San Francisco, CA 94107

You are responsible for postage of your game to our service center.
